Note: The course measures 9855m but the race was age graded using the 10k age grading tables.

Note: I was not the USATF Masters Cross Country Rep in 2000 and did not attend this event. There were no 'official' age graded results published. I have used the 1996 age graded tables to generate the above age graded results since the '2000' updated age grading tables were not published until 2002 and would not have been available for this event. – Bill Quinlisk
